**WINTER PARK, FL (November 12, 2008)** – Land Design Innovations, Inc. was awarded the contract to prepare the City of Eustis Comprehensive Plan Evaluation and Appraisal Report (EAR). All local governments in Florida are required by Florida Statute to adopt an Evaluation and Appraisal Report (EAR) once every seven years assessing the progress of their adopted Comprehensive Plan.

The City of Eustis conducted a community survey in 2006 and held several visioning workshops in 2007 to gather input from the public and to identify issues of concern to be evaluated during the development of the EAR. Land Design Innovations, Inc. (LDI) will facilitate an Agency Scoping Meeting November 20 with City officials, jurisdictions adjacent to Eustis, regional and state agencies and the public to define the major local issue or issues. Once the Florida Department of Community Affairs approves the major issue, LDI will prepare the draft EAR, which is scheduled for completion by June 2009, with adoption required by November 1, 2009.

###
