WINTER PARK, FL (June 20, 2008) – Land Design Innovations, Inc. (LDI) wishes to announce the opening of its Northwest Florida satellite office located in Fort Walton Beach. LDI's main office is based in Winter Park, Florida and was established in 1999 by Tracy L. Crowe, AICP. Peggy F. Fowler, AICP, is the Planning Manager for the Northwest Florida office. Prior to joining LDI, Ms. Fowler has been a highly respected planner in the Panhandle for 20 years - with the cities of Pensacola and Fort Walton Beach and as a private consultant.

LDI offers award-winning, full-service land use, urban design and economic development planning – with certified planners, professional engineers, registered landscape architects, and GIS technicians on staff. We are proud that we have LEED-AP certified and CPTED-certified planners and that our staff stresses sustainable design principles in all planning and design projects. Since 2000, ten of LDI's planning and design projects have won awards from the: American Planning Association, National Trails Symposium, Florida Planning and Zoning Association, Florida Redevelopment Association, and Orange County.

LDI is excited about working in Northwest Florida and has completed or is presently working on projects in the Panhandle cities of Gulf Breeze, Port St. Joe, Century and Quincy. Please see the firm's website at www.landbiz.com.
