WINTER PARK, FL (July 7, 2008) – Land Design Innovations, Inc. (LDI) was recently awarded the 2008 Outstanding Public Urban Plan award for the City of Melbourne Babcock Street Redevelopment Plan from the Florida Planning & Zoning Association during their annual conference in St. Augustine, Florida. LDI assisted the City of Melbourne by preparing a complete analysis and rewrite of the 1997 Redevelopment Plan for the Babcock Street CRA to address the City’s continued revitalization efforts. Key features of the Plan included coordination of activities with the Melbourne International Airport’s Master Plan and on-going FDOT roadway improvements, as well as identification of opportunity sites for economic development and key capital improvement projects. The Plan is unique in that it contains a combination of economic development programs and strategies to continue the primary objective of job creation that provides the economic base for the area.

###
